This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

GROWTH OF THE LIBRARY.

From the foregoing statements it will appear that the Library has been able to add to its already extensive collections, a large number of valuable books and pamphlets, covering a wide and comprehensive range of literary product.

The increase, however, while in a general way, gratifying, is by no means what it should have been, nor, it may be said, what it would have been, had the appropriation to the State Library for general purchases been kept at the figure fixed upon by the Legislature preceding, namely $12,000, or $6,000 per year.

As it was, the appropriation for miscellaneous books was reduced from $12,000 to $7,000—a reduction for this important department of $5,000, or $2,500 per year.

This reduction of appropriation was due to two causes; first, the poverty of the State Treasury, which rendered reduction necessary wherever possible; and second, to the fact that the Librarian had asked for an extra appropriation, amounting to $6,000, for the creation of a card catalogue, no catalogue of any kind being at the time in existence.

The need of a catalogue, through which the rich contents of the Library might be more fully opened up to its patrons was, however, so imperative, that the Librarian, compelled to a choice between evils, consented to a reduction in the amount asked for general book purchases, rather than lose the appropriation desired for the projected catalogue.

However necessary the reduction may seem to have been, at the time, it is clear that the amount appropriated by the Legislature next ensuing, should, at least, equal the amount appropriated in preceding years, namely, $12,000—$6,000 per year—for the purchase of miscellaneous books. We do not ask an increase over former years, but simply to the amount of appropriation agreed upon by the Legislature of 1897.

Very many of the works required in a State Library are, in the

nature of things, obtainable only at heavy expense—an expense far greater than would be the case were the Library of the general character of the ordinary public library.

This, however, is not the case. A library conducted by the State, designed primarily for use as a reference library, and dealing with forms of literature in which the general public can have but limited interest, must, of necessity, contain works not ordinarily to be found upon the shelves of public libraries, or, losing its distinctive character, cease to be of specific value to the people of the State.

A great State like Pennsylvania, full of wealth, abounding in resources, and daily extending its influence and power, ought to provide more than the beggarly sum of $3,500 per year for the purchase of the books of general character imperatively demanded, if the library of the State is to be developed in a manner commensurate with the dignity and resources of the same.

But for the donations received, and the large accessions through the system of exchange established between the library and the libraries of other States, foreign countries, historical and archaeological societies, the showing for the present year could hardly be considered as creditable to Pennsylvania.

IMPROVEMENTS.

During the year the main improvement effected has been th completion of the new room for the Newspaper Department, located in the upper story of the Library Building, and with an area equal to that of the main floor of the library proper.

This room, commodious, well ventilated, and well lighted, has been equipped with twenty-four steel stacks of elegant design, and finished workmanship, with ample space for the placing of twenty more of similar character should future occasion arise.

To this room—than which no State has a finer—the vast newspaper collection—numbering thousands of bound volumes, have now been removed, and the work of re-arranging and classifying the same is now being pushed as rapidly as the limited resources of the Library will allow.

Through the generous and ample appropriation made by the State for the purchase of newspapers the average increase in bound volumes of files is between seven and eight hundred volumes per year.

Th fact that this new room is apart—by itself—rendering necessary the presence of an attendant while files are being consulted—and the additional fact that such attendant cannot be spared from his work in the main library room, because of the constantly increasing number visiting the Library for consultation purposes, render the employment of an additional assistant, to take charge of the

NEWSPAPER ROOM.

newspaper department, an imperative necessity. The necessity has become the more apparent because of the discovery that in preceding years the work of classifying the files and properly arranging the same in volumes has been performed in a manner so unsatisfactory that much of the work must be done over, if the files are to be preserved in proper form, and the contents thereof made accessible.

As a measure of economy, should provision be made for an additional library assistant, the same party could also act as Superintendent of the Traveling Libraries, created and sent out by the Free Library Commission, the headquarters of which libraries has already been established in the State Library Building, the State Librarian having granted to the Commission the use of a section of the newspaper room.

Among other and minor improvements deserving of mention are the new and elegant mahogany tables and chairs recently secured for the main library room to take the place of those formerly in use, and which have now been transferred to the new Newspaper Department.

With respect to other improvements, much needed but not as yet effected, we beg to mention, with especial emphasis, the removal of the present stairways, and the construction of new ones so placed that all possibility of obstruction to the entrance of light shall be removed, and, at the same time, the much needed additional floor space in the main room secured.

At present the floor room space is very limited, the consultation tables crowded, and at times, the numbers gathered about the tables so great that independent work is hardly possible. These stairways, as at present located, occupy nearly one-half the library floor space outside of the alcoves. Unsightly, obstructive of light, and occupying space imperatively demanded for other uses, they should be removed as soon as possible.

The mechanical difficulties involved in the proposed change would not be difficult of solution, and the expense would not be large.

Repeatedly in his annual reports, my predecessor in office has called attention to this needed change, but for some reason nothing further has been accomplished. The State Librarian begs once again to bring this important matter to the attention of the Library Trustees.

FREE LIBRARY COMMISSION.

The Free Library Commission of the State of Pennsylvania is a body entirely independent of the State Library Department, yet, as by the terms of the act creating the Commission, the State Librarian is ex-officio Secretary of the same, he has been requested to incor-

porate in his annual report a statement of the work thus far accomplished by the Free Library Commission.

In accord with this request, we beg leave to report as follows:

The act establishing the Commission, passed by the Legislature of 1899, provides:

"Section 1. That the Governor shall appoint five persons who, with the State Librarian, shall constitute a Free Library Commission. Two of the members appointed by the Governor, shall be appointed for a term of four years, and three of the members appointed by the Governor shall be appointed for a term of five years, except the appointments to fill vacancies. The Commission shall elect a Chairman. The State Librarian shall be ex-officio Secretary of the Commission.

Section 2. The Commission shall give advice and counsel to all free libraries in the State and to all communities which may propose to establish them, as to the best means of establishing and administering such libraries, the selection of good books, cataloguing, and other details of library management. The Commission shall have the powers of general supervision and inspection, and the right of requiring reports which is invested in the State Librarian by section five of an act, entitled "An act for the establishing of free libraries in the several school districts of the Commonwealth, except in cities of the first and second classes," approved the 28th day of June, one thousand eight hundred and ninety-five. The Commission shall also establish and maintain out of such sums as shall come into their hands by appropriation, or otherwise, a system of travelling libraries as far as possible throughout the Commonwealth.

Section 3. No member of the Commission shall receive any compensation for his services as a member. Approved—The first day of May, 1899."

The gentlemen appointed by His Excellency, the Governor, to serve on the Commission were as follows: C. L. Magee, of Pittsburg; Henry Belin, Jr., of Scranton; John Thomson, of Philadelphia; Wm. N. Frew, of Pittsburg; William M. Stevenson, of Allegheny.

The Commission organized April 25, 1900, with C. L. Magee as Chairman; John Thomson, Treasurer; Geo. Edward Reed, Secretary, ex-officio.

Thus far the work of the Commission has been the framing of a General Library Law, to be submitted to the Legislature at the session next ensuing, and the institution of the

TRAVELLING LIBRARY SYSTEM

authorized by the act.

As the Legislature made no appropriation whatever for the establishment of the travelling libraries, to be sent out to the desti-

tute portions of the State, the Commission, having no funds, was obliged to rely upon the activity of its members for the securing of subscriptions from public-spirited citizens of the Commonwealth, for the carrying out of its purposes. As the result of these efforts twenty-eight hundred dollars were raised and placed in the hands of the Treasurer in order that a beginning, at least, might be made.

This sum secured, the Commission began its work. Thirty libraries, of fifty volumes each, have been prepared, and by January 1, 1901, will have been sent out upon their mission.

Had the Legislature made a sufficient appropriation much more could have been accomplished.

As it is, the thanks of the State are due those citizens through whose generosity the thirty libraries now existing have been made possible.

It is earnestly to be hoped that the Legislature of 1901 will make a reasonable appropriation for the furtherance of this effort to bring to the people of the State residing in sparsely settled country school districts, in the mining towns, and in the manufacturing centres, the advantages in the way of libraries now enjoyed by those living in places where libraries exist, and access to books is possible.

In Ohio, seven hundred similar libraries are in circulation. In Wisconsin, in New York, as many more; while in a number of States for inferior to Pennsylvania in wealth and population, the system of traveling libraries has been inaugurated.

Our conviction is, that when the taxpayers of the State come to understand the vast importance of these libraries as a means of general culture, they will insist that appropriations commensurate with the demand shall be made.

The Commission has desired the Secretary to present to the next Legislature a request for an appropriation of not less than ten thousand dollars, five thousand for each of the two years, for the furtherance of the traveling library work.

As thousands of books would have to be purchased, cases for the same constructed, finding lists prepared, and the expenses of a Secretary for the conduct of the work provided for, it is clear that a smaller appropriation would be entirely insufficient. The sum will doubtless be augmented through private benficence of citizens of the State.

The State Library Building has been selected as headquarters for the Commission, and the State Librarian has been requested to supervise the work of the traveling library system.

This, however, he will be unable to do, because of the vast amount of additional work involved, unless the Legislature shall provide in its appropriations an amount sufficient to employ a person competent for the task, and trained in the details of library work.

CATALOGUING.

Although through the six thousand dollars appropriated by the last Legislature, a card catalogue, covering all miscellaneous books, and to some extent those of the twenty thousand law books in the possession of the library, has been prepared—a task which few familiar with the library work thought possible on so small an appropriation—nevertheless, an immense amount of work yet remains to be done before the library treasures can be said to be fully catalogued. In the great stack room, for instance, are stacked nearly twenty thousand bound volumes of most important documents, the major portion of the contents of which cannot be gotten at simply because subject cards of the same have not yet been prepared.

The same is true of thousands of newly bound volumes of important pamphlets, received since the cataloguing of a year ago.

For these reasons the work of cataloguing should be continued until the whole field shall have been covered and the library brought to the degree of development attained by the libraries of leading sister States.

The want of a proper cataloguing of the State Library has been long a matter of reproach, a cause of wonder to kindred libraries, and now that a good beginning has been made through the creation of the Card Catalogue, the work should not be permitted to cease until the entire library shall have been gone over.

It being impossible for the regular cataloguer to do more than catalogue and place the regular accessions of the Library, an extra force of four persons, skilled in library work, should be employed. To this end an appropriation amounting to $4,000, $2,000 for each of two years, is earnestly desired. With this force, acting under the direction of the Librarian, a vast amount of work could be finished and at a cost less by three-fourths than that incurred in ordinary library work of this kind.

In making this suggestion, we do not fail to bear in mind the general unwillingness of the Legislature to increase the force of employes in the various departments. Our suggestion, however, is modest in character, and if carried out would involve the very minimum of expense. The force employed to-day in the State Library is but one-fourth of that in the Library of the State of New York, and yet the library of New York is larger than that of Pennsylvania by but sixty or seventy thousand volumes.

The real value of a State Library, indeed the value of any library, is determined, not so much by the number, or rareness, of the volumes upon its shelves, as by the accessibility of its contents. This, in turn, must depend upon the thoroughness of the cataloguing, indexing and classifying of its treasures. The State Library of Penn-

RIGHT SECTION OF CARD CATALOGUE.

sylvania, while a most noble collection of books, of greatest value, is not, nevertheless, catalogued and indexed as it should be.

This work completed, the contents of the library clearly defined, ten persons would avail themselves of the privileges of the same where now one appears.

THE LAW CATALOGUE.

The Law Catalogue upon the preparation of which so much of time and money has been expended, and which in our last report we mentioned as being in the printer's hands, was published early in the year, and the work is now in process of distribution. This printed Catalogue is a stately volume of nearly one thousand pages. Competent judges in various sections of the State and nation have been pleased to speak of the same in terms of highest commendation, giving to it high rank among works of similar character.

The purpose, however, of the State Librarian, is to finish if possible, the work, already begun, of putting the entire law collection of the Library under the card catalogue system to the end that contents of the law department may ever be accessible, and ever up to date.

The purpose, however, will be impossible of realization if the Legislature shall fail to make the necessary appropriation.

RECOMMENDATIONS.

1. That the Legislature be requested to increase the appropriation for purchase of miscellaneous books to $12,000, $6,000 for each of the two years next ensuing, the present appropriation being but $3,500 per year.

2. That the Legislature be urged to appropriate not less than $4,000, or $2,000 per year, for the furtherance of the work of cataloguing.

3. That the Legislature be asked to appropriate the sum of $10,000, or $5,000 per year, for the development of the traveling libraries under the direction of the Free Library Commission, created by the last Legislature.

4. That the State Librarian be directed to bring to the attention of the Department of Grounds and Buildings the matter of the stairway changes mentioned in his annual report.

In conclusion we beg leave to express to your excellency, and to the other members of this Board, our sincere thanks for the interest manifested in the affairs of the Library, and for the unvarying support accorded to the State Librarian in all plans for the enlargement of library facilities, and the adequate maintenance of its work.

We also desire to present our hearty thanks to the members of the Library Staff, who by their fidelity and interest, have contributed so largely to the efficiency and success of the Library Department.

Respectfully submitted,

GEO. EDWARD REED,

State Librarian.

ANNOTATED CATALOGUE

OF

NEWSPAPER FILES

IN THE

PENNSYLVANIA STATE LIBRARY.

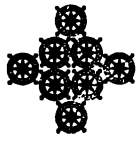
PREPARED UNDER THE DIRECTION

OF

GEO. EDWARD REED,
State Librarian,

BY

NATHAN E. HAUSE,
Official Cataloguer.



PREFACE.

In presenting this brief catalogue of the Newspaper files in the Pennsylvania State Library, a few words of explanation are necessary. Grateful acknowledgment is first made to the editors and publishers of the numerous newspapers for their courtesy in answering our inquiries, giving us valuable information, without which it would have been much more difficult to compile this work. The various county histories have been drawn upon somewhat and we have availed ourselves of data from other sources. By far the greater part of our information, however, was derived from our collection of files, as being the most convenient and reliable.

This compilation is necessarily imperfect; none perfect could be made. Few newspaper offices are fortunate enough to possess a complete set of their own files, and of many papers there are no files in existence. In spite of all efforts to avoid errors, some, perhaps many, will be found in this list. Our friends will do us a favor by indicating them, so that future editions may be corrected.

Lack of time has prevented us from going into detail as to particular dates of our files, and they are given in a general way only. Several volumes of miscellaneous papers are not mentioned in this catalogue, but will be classified and arranged for a future publication. The Chronological Arrangement and the Index, both necessary and valuable features, must also wait for a more convenient season.

Particular attention has been given to the papers of our own State, of which the Library has a fine collection, especially of Harrisburg and Philadelphia. The earlier files of papers in these cities are rare and valuable, and of great importance to students of history. In the past the Library has made no effort to procure newspapers not published in this country.

In making the count of volumes the weeklies are enumerated to July, 1900; the dailies to January 1, 1900.

Frequency of publication is indicated thus: d, daily; w, weekly; s-w, semi-weekly; t-w, tri-weekly; m, monthly; s-m, semi-monthly; q, quarterly.

|| signifies that the Library possesses the continuation of the file, to date.

Figures in ( ) after the name of county indicate the number of papers now published in that county.

The Courier is recognized very generally as authority on the Connellsville Coke trade, including all its statistics of production, shipment, etc. Mr. Snyder says: "The Courier has always been a Democratic paper. Four years ago it supported Palmer & Buckner. This year (1900), as in 1896, it is against Bryan and Bryanism, and

for McKinley and all he stands for, including: 1. Sound money and the full dinner pail. 2. Expansion, including 'greedy commercialism,' and in favor of licking the life out of the Filipino guerillas, and treating with them only after they are licked and not before. 3. An army and navy sufficient to protect the flag wherever it flies and the honor of the nation always, whether this be imperialism, or militarism, or any other old ism. 4. By reducing costs in our various lines of manufacture, aided by this country's superior natural resources, 'Trusts' have enabled us to enter the markets of the world with American goods. We are soon destined to be the greatest manufacturing nation in the world and 'trusts' have their share in making us the creditor nation of the earth. They ought to be subject to certain regulations regarding publication of their statements, but otherwise encouraged. 5. And finally, we believe in Law and Order and their maintenance by the Courts and the Government. The Courier does not 'oppose,' 'deny,' 'protest against,' or 'view with alarm' the condition of the country; but on the contrary is well satisfied with present conditions. It will therefore support the government whose policy has contributed so materially to bring them about."

Norristown Weekly Herald and Free Press and Republican, (w). July, 1889.|| 11v.:

The first printing office in Montgomery county was established in

1799 by David Sower, at Norristown. In June of that year he began the publication of a small paper called the Norristown Gazette. It was a 4-page weekly, 8½x10 inches, 3 columns to a page. After a year it was succeeded by the Norristown Herald and Weekly Advertiser, the first number bearing date, October 13, 1800. In December, 1808, David Sower transferred the paper to his son, Charles, Jr., who enlarged it. During the war of 1812-15, the office was wrecked by a mob and the proprietor beaten, because of his opposition to the war, the Sowers being strong Federalists. In July, 1816, David Sower, Jr., son of the founder, bought the plant, disposing of it in July, 1834, to John Hodgson, of Doylestown. David Sower, Jr., enlarged it four times during his ownership. Hodgson sold it in 1837 to Robert Iredell, who consolidated it with the Free Press, the new issue taking the name Herald and Free Press. The Free Press had been started in December, 1829, by Henry S. Bell, as an Anti-Masonic paper. In April, 1843, a half interest in the Herald was bought by William Butler, for many years a Judge of the U. S. Court at Philadelphia, who remained with the paper 18 months. In 1864 Morgan Reese Wills purchased of Iredell a half interest in the Weekly Herald. In October of that year the firm became Wills, Iredell & Jenkins, by the consolidation of the Norristown Republican and the Herald. The Republican was the successor of the Olive Branch, a Temperance and Free Soil paper established at Doylestown in 1842, by F. P. Sellers. It was transferred to Norristown in the fifties, and managed by Moses Auge, 1857-62. In the latter year it came into possession of Wilmer Atkinson and Howard M. Jenkins, who were publishers at the time of consolidation. The former is now publisher of the Farm Journal, Philadelphia, and the latter is connected with the Friends' Intelligencer and Journal. Jenkins retired from the firm in September, 1866. Wills and Iredell dissolved partnership, the latter going to Allentown to take charge of the Lehigh Register, which had been purchased by the firm in January, 1869. Wills, now sole proprietor, has published the Daily Herald since December, 1869, of which the late John H. Williams was associate editor for nearly 30 years. Federal, Whig and Republican.
